01 — BRAND CORE

Who We Are

Sprout is the platform where parents find their people — not just playdates, but a genuine community that grows with their family. Every design and word choice should reflect that human warmth.

BRAND IDEA

*"You got lucky when you found these people.
Sprout is where that luck happens."*

THE PARTY LINE

"You know how when you have kids and move somewhere new you basically have to start your whole social life over? I'm building the app that solves that."

BRAND PERSONALITY PILLARS

Warm & Human

We speak like a trusted friend, never a corporate product. The tone is always supportive, real, and never preachy.

Serendipitous

The best connections feel like happy accidents. Our brand celebrates the joy of finding your people — that feeling of "lucky me."

Grounded & Safe

Parents trust us with what matters most. We feel reliable, calm, and rooted — never flashy, never alarming.

LOGO SYSTEM

Sprout

Primary — on light background

Sprout

Reversed — on dark background

Icon-only — app icon, favicon

Logo Rules

Always maintain a clear space of at least 1× the icon height around the logo. Never stretch, rotate, recolor, or add effects to the logo. The clover icon always appears true to its original form — never replace with a

generic emoji or altered version. On dark backgrounds, use the logo at natural opacity. Never use the wordmark without the clover. Minimum display size: 28px height for icon, 80px width for the full lockup.

Color System

Sprout's palette is rooted in nature — organic creams and deep forest greens. The warmth of cream creates safety; the depth of green signals growth and trust.

Button label	Inter	14px	500	Natural spacing

UI Components

Every component inherits the warmth of the color system. Pill shapes, gentle shadows, and organic textures create a tactile, welcoming interface.

Brand Voice

Sprout sounds like that friend who just moved to your city and immediately made everyone feel welcome. Effortlessly social, real, never trying too hard.

Warm & Genuine

We write like a real person, not a brand. Direct, sincere, and never over-polished. "You know how..." not "Our platform enables..."

Serendipitous

We celebrate the magic of unexpected connections. Language should feel like a happy coincidence — light, surprising, and lucky.

Grounded & Calm

No hype. No urgency pressure. Parents are already overwhelmed — Sprout is the exhale, not another notification to worry about.

Community-first

We always credit the community. "Patrick Collison is hosting" not "an event is available near you." Real names, real places, real people.

✓ WE DO SAY

- ✓ "You got lucky when you found these people."
- ✓ "James is hosting a surf session Saturday."
- ✓ "2 Meeting Points waiting for you."

✗ WE DON'T SAY

- ✗ "Optimize your social network today!"
- ✗ "Find events using our AI-powered engine."
- ✗ "Don't miss out — limited spots!"

- ✓ "Parks and playgrounds near you."
- ✓ "Where that luck happens."
- ✓ "Patrick and 4 others are going."

- ✗ "Our platform connects families seamlessly."
- ✗ "Sign up to unlock premium features."
- ✗ "Leverage community-driven synergies."

Tone by Context

CONTEXT	tone	EXAMPLE
Onboarding	Warm, personal	"You're going to love who you meet here."
Empty state	Hopeful, gentle	"Your first event is waiting to happen."
Notifications	Direct, low-pressure	"James wants to surf Saturday – join in?"
Error message	Calm, helpful	"Something got tangled. Let's try that again."
Celebration	Joyful, human	"You met 3 new people this week. 🎉"
Marketing	Story-driven	Lead with the parent's feeling, not the feature.

Copy Examples

Reference copy for common UI surfaces. Always feel free to adapt — the tone matters more than the exact words.

APP TAGLINE

"Where parents bond and childhoods flourish."

ONBOARDING HEADLINE

"Your people are out there. Let's find them."

EMPTY EVENTS FEED

"No events yet — but your first one is just around the corner."

MEETING POINTS PROMPT

"You've got 2 Meeting Points. These parents want to meet you."

INVITE A FRIEND

"Know a parent who needs this? Share your spot."

POST-EVENT MEMORY

"You played together at the park. That's a beginning."

NEW MEMBER IN CLUB

"Someone new just joined Lincoln School. Say hello."

PUSH NOTIFICATION

"Patrick is hosting a surf session Saturday at 6:30pm. Sound fun?"

07 — IMAGERY

Photography & Visual Style

Sprout imagery should feel documentary, not staged. Real families, natural light, genuine moments. The camera is a witness to joy, not a director of it.

✓ Use: Natural & Candid

Kids playing, parents laughing, outdoor activities in natural light. Warm tones, real moments, community gatherings.

✗ Avoid: Over-produced

Stock photo smiles, studio lighting, perfect outfits, overly bright & saturated edits. Never sterile or corporate.

Image Treatment

Event thumbnails use a 1:1 crop at 80×80px with 12–16px border radius. Hero images use a 16:9 or 3:2 ratio with slight warm overlay (rgba(240,237,230,0.1)). Images in cards always pair with Playfair Display titles overlaid below, never on top. Always maintain cream/warm color harmony — cool-tinted or blue-cast photography should be avoided or warmed up.

Spacing & Motion

Consistent spatial rhythm creates calm and clarity. Motion should feel organic — like leaves settling, not like a notification alarm.

SPACING SCALE

Micro interactions

duration: 150ms
easing: ease-out
Use for: button tap, chip select, icon state

Card transitions

duration: 240ms
easing: ease-in-out
Use for: card appear, list items, modals

Screen transitions

duration: 320ms
easing: cubic-bezier(0.4,0,0.2,1)
Use for: page navigation, tab switch

Motion Principles

Motion in Sprout should feel like nature — a leaf settling, not a loading spinner. Use spring physics for card interactions (slight overshoot then settle). Never use jarring cuts or aggressive bounces. Celebration moments (joining an event, meeting someone new) deserve a gentle scale + fade. Keep all animations under 400ms. Respect prefers-reduced-motion at all times.

Social Media Branding

Sprout's social presence should feel like scrolling through a close friend's feed — warm, real, and never promotional. Every post should make someone think "I want to be in that community."

PLATFORM STRATEGY

Instagram

Primary — community moments & event recaps

Facebook

Groups, local parent networks, event sharing

LinkedIn

Founder-mode content, product milestones, press

TikTok

Relatable parent content, behind-the-scenes

POST FORMAT SPECS

1:1

Feed Square

1080 × 1080px

4:5

Feed Portrait

1080 × 1350px

9:16

Story / Reel

1080 × 1920px

16:9

Cover / Banner

1920 × 1080px

PROFILE IMAGE SPECS

Use the Sprout clover logo (app icon version) as the profile photo across all platforms. Minimum source size: **400 × 400px**. The logo must sit on a Forest Green (#1E4A35) background — never on white alone or cream for the profile picture, as it disappears at small sizes. Display size: 110px (Instagram), 170px (Facebook), 400px (LinkedIn). Never use a person's photo or a text-only graphic as the brand profile.

INSTAGRAM GRID AESTHETIC

Alternating: community photo → quote card → photo → app screen

Grid Rules

Maintain a warm, earthy tone — no cold blue casts. Alternate between real community moments, Forest Green quote cards, Cream quote cards, and app screen previews. Every 3rd post should feature a branded graphic with Playfair Display italic quote on Forest Green. Add the Sprout clover watermark (bottom-right, 10% opacity overlay) to all original content posts.

CAPTION VOICE

✓ **CAPTION DO'S**

- ✓ Lead with a human moment, not a product feature
- ✓ Keep under 150 words for feed posts
- ✓ Soft CTA: "Join us →" or "Sound like your people?"
- ✓ Use first-person plural: "we", "our community"
- ✓ Name real people and real places when possible
- ✓ End with 5–8 targeted hashtags on a separate line

✗ **CAPTION DON'TS**

- ✗ "SIGN UP NOW" or "LIMITED TIME OFFER"
- ✗ More than 8 hashtags — looks spammy
- ✗ Generic mega-tags like #parenting (too broad)
- ✗ Emoji spam — max 3 emojis per caption
- ✗ Promotional language about features or pricing
- ✗ Tagging unrelated accounts for reach

HASHTAG STRATEGY

Core brand hashtags (always include):

#SproutApp

#WhereParentsBond

#ChildhoodsFlourish

Community hashtags (choose 2–4 relevant per post):

#ParentCommunity

#MomFriends

#DadFriends

#NewToTown

#PlaydateIdeas

#FamilyEvents

STORY HIGHLIGHT COVERS

Highlight covers use Cream (#F0EDE6) background with the category icon and label in Forest Green. Source size: 1080 × 1920px; display crop: 161 × 161px circle.

BRANDED DOCUMENTS

Document System		
DOCUMENT TYPE	COVER TREATMENT	INTERNAL PAGES
Investor deck / Report	Full-bleed Forest Green header · white Playfair title · clover watermark 8% opacity	Cream header bar · logo top-right · Forest Green page number footer
Contract / Proposal	Letterhead format · title in Playfair Display 24px	Standard letterhead headers and footers · no color blocks
Internal memo	Minimal header: logo + date + subject in Inter	Clean white · Inter 11pt body · Forest Green subheadings
Event brief	Cream background · Forest Green accent strip left · Playfair event title	Cream card blocks for each section · sage tag labels

Branded Asset Checklist
Every piece of company collateral must include: the Sprout clover logo (never emoji substitution), at minimum one brand color (Forest Green or Cream), Playfair Display for any headline or title, and the website URL. Documents sent externally must be exported as PDF. Editable source files (Figma, Google Docs, Keynote) are for internal use only and should live in the shared brand asset folder.

Presentation Branding

A Sprout deck should feel like the brand itself — warm, grounded, and human. Slides should breathe. One idea per slide. Let the content do the work, not the decorations.

✓ **DECK DO'S**

- ✓ One clear idea per slide — no cramming
- ✓ Generous white/cream space on every slide
- ✓ Sprout logo bottom-right on every content slide (28px height)
- ✓ Playfair Display for emotional headlines and quotes
- ✓ Natural, candid photos only (never stock smiles)
- ✓ Charts in Sprout green palette exclusively
- ✓ Section divider slides between major chapters

✗ **DECK DON'TS**

- ✗ More than 5 bullet points on any slide
- ✗ Drop shadows or gradients on slide backgrounds
- ✗ Off-brand colors (purple, blue, red, orange)
- ✗ More than 2 typefaces in a single deck
- ✗ Cluttered data slides — simplify your charts first
- ✗ Centering body text (left-align always)
- ✗ Comic Sans, Papyrus, or decorative fonts

Recommended Deck Structure

SLIDE	TYPE	PURPOSE
1	Cover	Company name, tagline, date, audience context
2	Content	The problem – told as a parent's story
3	Content	The solution – one sentence, then show it
4	Section Divider	"The Opportunity" or "Why Now"

SLIDE	TYPE	PURPOSE
5–6	Data	Market size, key stats – visual, not tabular
7	Content	Product walkthrough or screenshots
8	Content	Traction, social proof, or community moments
9	Content	Team slide – photos, Playfair names
10	Cover (closing)	The ask + contact + tagline

*"You got lucky when you found these people.
Sprout is where that luck happens."*

Sprout Brand Guidelines v2.0 · March 2026 · For internal use
